The Town of Quartzsite has applied for Federal funding under the Community Development Block grant to undertake the purchase and installation of an annex building to be placed on site with the Community Center. This annex building will be used to house the exercise equipment allowing access to it during business hours, as well as opening space in the existing building to allow for more community activities.

As part of this endeavor, a community wide income survey is required to confirm that the Town of Quartzsite is 51% low to moderate income. Surveys have been mailed out. If you have received one, please complete it and send it back in the self-addressed, stamped envelope enclosed. This survey must be completed by August 17, 2019 for the Town’s grant application to be funded.

D Bishop Consulting has been contracted to complete the survey. Denise Bishop and her associates will begin calling residents who have been mailed the survey to get the response over the phone. They will also begin going to the homes to get the response. It is extremely important that you do your part in getting this survey completed.

The survey contains 4 questions and a tear-off portion at the bottom. The bottom portion will ask for your name, signature, date and address. This is for control purposes only, and once your response is recorded, this portion will be torn from the survey and destroyed. This is only to validate your response.

If you have any questions, please contact Denise Bishop at 928 208-5841. Unfortunately, we are unable to complete this survey online.
